This is a gratifying beginning. It is especially gratifying when you age into consideration the fact that the people who contributed yesterday learned only yesterday morning the precise nature of the plan and the precise nature of the plan and the precise method by which to forward their contribution to THE WORLD OFFICE.

The reasons why The World and other stanch Democratic newspapers are engaged in this popular subscription work must be plain to every Democrat. This money which you and your fellow-Democrats give is to be used in adultful Western States. It is to be used in adultful Western States. It is to be used in adultful Western States. It is to be used in adultful Western States. It is to be used in adultful Western States. It is to be used in adultful Western States. It is to be used in adultful Memocrat. The business of the day is not to let them alone and merely trust that they will become Democratic by 1809, but rather to work with them now so that they may become Democratic in November this year.

A dollar from you may be the means of converting some doubtful voter in one of these States. Ten dollars from you will do more then ten times as much. It you can give more, give it.

The object which THE WORLD has in view and the plan upon which THE WORLD is working have been approved by Chairman Harrity, of the National Democratic Committee. Mr. Harrity says that all the money which the people can raise can be used with good results and he hopes that every one who can will contribute to the fund.

the people can raise can be used with good results and he hopes that every one who can will contribute to the fund.

Senator variable has also expressed himself in tayor of the western Democratic Campaign Funt. He believes that it is the right way to get money from the people, and is confident that the dimes and the dollars of the hemocratic host, as gathered in this way, will do much loward selecting cleveland and stevenson and sutalitating tariff reform for protection their.

In the upper part of the last column on the first laye of te-day's wonth you will find a condensed statement of the scope of the Western Democratic Campaign Fund and suggestion as to the manner of sending contributions to The World. Every dollar received by us up to 5 of occ in the afternoon will be acknowledged in 1 ms World the next moding. Every dollar the last world and acknowledged in 1 ms World the next moding.

Let it not make any difference whether you te a man, a woman, a boy or a girl, so long as you be a Lemocrat, a believer in government for the best interests for the people, a believer in taria reform.

BEWARE OF FRAUDY. Esware of plausible men going around pre-tending to be ganva-se s and soliciting your authoristion. I am a Democrat and a Tammany man. It's a mighty good scheme to get up a Western camoaign tand, and I hope it will succeed. It ought to, with the \$12,000 nest egg with which it has started off. These subscriptions were all three in big chunks. That's the kind we want. Still you say you want anything over 10 cents. A small subscription shows that the giver is with you in spirit, even if he hasn't got much cash. Now I am a very poor man, and I can't afford to give \$10,000 like Mr. Pulitzer, or \$1,000 like the others, or even onestenth of that.
